

Ork Codex slide compilation — manually reviewed transcription

Source deck: Google Slides

Review date: 2026-08-21

This consolidated transcript preserves the readable text, profiles, weapon values, abilities, options, keywords, page references, flavour text and visible image captions from all 33 slides. Structure and typography have been normalized for reading, but game terms and numerical values have not been intentionally simplified.

Review notes

- Every slide was checked against its rendered page and, where available, the higher-resolution source photograph.
 - Slide 1's original index swaps the actual contents of slides 11 and 12; the corrected index records the real slide order.
 - The source photograph on slide 22 crops part of one image caption. Only its visible ending is preserved and explicitly marked as partial.

DETACHMENT RULE — GET STUCK IN

Joyously anarchic and recklessly destructive, all Orks eagerly get stuck in to every fight.

Friendly **ORKS** units' melee attacks have **[SUSTAINED HITS 1]**.

ENHANCEMENTS

HEADWOPPA'S KILLCHOPPA

Tribal legend speaks of a blood-slick choppa once owned by Grand Warboss Headwoppa — last seen charging headlong into a horde of daemons — that turns up occasionally across the galaxy in different forms. Though it looks normal, a dark voice is said to growl in the mind of the weapon's wielder, driving them on to ever greater excesses of violence.

ORKS model only. If this unit made a charge move this turn, this model's melee attacks have +1 AP.

DA BOSS IS WATCHIN'

This war leader is a glowering incarnation of violence, his brutality so contagious that when he bellows his blind fury and releases his pent-up aggression, Orks nearby are excitedly swept along with him.

ORKS model only. (Once per battle, per army) In your Movement phase, you can use this ability. If you do, this unit is **riled up** until the start of your next turn.

KUNNIN' BUT BRUTAL

Feigning weakness, this Ork allows his foes to think he's legging it before suddenly piling back into the fight and delivering a brutal flurry of attacks.

ORKS model only. When this unit is selected to make a fall-back move, that fall-back move does not prevent this unit from being eligible to shoot/declare a charge.

FOLLOW ME LADZ

Always found at the forefront of an assault, this Ork likes to be the first into the fray with his mob close on his heels to join in the violence.

ORKS model only. This unit has +2" M.

STRATAGEMS

BREAKIN' HEADS — 1CP

Sometimes even the most enthusiastic Orks need a little 'encouragement' to stay in the fight.

- **When:** Any phase, when a friendly attached **ORKS INFANTRY** unit becomes battle-shocked.
- **Target:** That **ORKS INFANTRY** unit. You can target that unit with this Stratagem even though it is battle-shocked.
- **Effect:** Roll one D3:
 - Your unit suffers a number of mortal wounds equal to the result.
 - Your unit is no longer battle-shocked.

MOW 'EM DOWN — 1CP

Spiked rams, deff rollas and glyph-heavy dozer blades are more than just stylish statements for the crew of Ork vehicles.

- **When:** Fight phase, when a friendly **ORKS VEHICLE** unit (excluding **WALKER** units) that made a charge move this turn is selected to fight.
- **Target:** That **ORKS VEHICLE** unit.

- **Effect:** Your unit's melee attacks have:
 - **[CLEAVE 1]**; or
 - If that attack already has **[CLEAVE]**, +1 to the value of that **[CLEAVE]** (e.g. **[CLEAVE 1]** becomes **[CLEAVE 2]**).

HIT 'EM HARDER — 1CP

Even the weediest Orks possess great strength, and need little persuasion to bring it to bear.

- **When:** Fight phase, when a friendly **ORKS** unit is selected to fight.
- **Target:** That **ORKS** unit.
- **Effect:** Your unit's melee attacks have **[LETHAL HITS]**.

FUNGUS-FUEL INJECTION — 1CP

Fermented through entirely unstable processes, just a drop of these potent additives can supercharge any Mek-built engine.

- **When:** Your Movement phase, when a friendly **ORKS MOUNTED/VEHICLE** unit is selected to move.
- **Target:** That **ORKS MOUNTED/VEHICLE** unit.
- **Effect:** Your unit has +2" M.

ORKS IS NEVER BEATEN — 1CP

So resilient is Ork physiology — and so slow are Orks on the uptake — even death can take time to register.

- **When:** Fight phase, when an enemy unit targets a friendly **ORKS** unit (excluding **TITANIC** units).
- **Target:** That **ORKS** unit.
- **Effect:** When a model in your unit is destroyed, if your unit has not been selected to fight this phase, roll one D6, with +1 to that roll if your unit is **riled up**:
 - On a 4+, do not remove that model from the battlefield. When your unit has fought, or at the end of the phase (whichever comes first), that model is removed from the battlefield.

CLOSE-RANGE DAKKA — 1CP

Many Orks think it's a waste of time blazing away at long range, when it's more fun to see the effects of potent dakka up close.

- **When:** Your Shooting phase, when a friendly **ORKS** unit is selected to shoot.
 - **Target:** That **ORKS** unit.
 - **Effect:** Your unit's ranged attacks have:
 - **[RAPID FIRE 1]**; or
 - If that attack already has **[RAPID FIRE]**, +1 to the value of that **[RAPID FIRE]** (e.g. **[RAPID FIRE 1]** becomes **[RAPID FIRE 2]**).
-

◆ SLIDE 3 — GREEN TIDE & BULLY BOYZ

Source pages: 124–125.

Rendered slide · High-resolution source

Green Tide

Detachment rule — Mob-handed Brutality

In the massive fights that Orks enjoy, the only way to ensure a slice of the action is to fight harder.

- Friendly **BOYZ** units' melee attacks have **[SUSTAINED HITS 1]**.
- If a friendly **ORKS INFANTRY** unit made a charge move this turn, that unit's melee attacks have **[LETHAL HITS: non-MONSTER/VEHICLE]**.

Enhancements

FEROCIOUS SHOW-OFF

This brutal fighter is even more dangerous with a raucous audience of chanting Orks, as he displays his violent abilities as a warning to all.

ORKS INFANTRY model only. This model's melee attacks have:

- +1 A; or
- If this unit has 11+ models, +2 A.

'ARDBOYZ

Orks with enough teef — or muscle — can acquire extra scrap iron plates collectively referred to as 'eavy armour, which is battered into shape so that it roughly fits the wearer.

BOYZ unit only. This unit has 4+ Sv.

Stratagems

UNBRIDLED CARNAGE — 1CP

When da Boyz get stuck into the foe, the carnage is wonderful to behold, at least for all their mates.

- **When:** Fight phase, when a friendly **BOYZ** unit that made a charge move this turn is selected to fight.
- **Target:** That **BOYZ** unit.
- **Effect:** Your unit's melee attacks have +1 A.

MOB MENTALITY — 1CP

With volleys of wagers, threats, insults, dung and the occasional rock, large mobs bolster the spirits of others in the most Orky ways possible.

- **When:** Start of the Battle-shock step of your Command phase.
- **Target:** One friendly **ORKS INFANTRY** unit of 8+ models.
- **Effect:** Select one visible friendly **ORKS** unit within 12" of your unit. That unit's battle-shock rolls are automatically successful.

'ERE WE GO — 1CP

Orks can put on a surprising turn of speed when the promise of a good face-to-face fight is in the offing.

- **When:** Your Movement phase, when a friendly **BEAST SNAGGA BOYZ/BOYZ** unit is selected to move.

- **Target:** That **BEAST SNAGGA BOYZ/BOYZ** unit.
- **Effect:** Your unit has +2 to advance rolls.

Bully Boyz

Detachment rule — Displays of Savagery

Nobz have a position of dominance to maintain, and do so in vicious eruptions of violence.

Friendly **MEGANOBZ/NOBZ** units' melee attacks have **[SUSTAINED HITS 1]**.

Enhancements

WIMP-KICKAZ

Any snivelling gitz attempting to back away from a good fight with these arrogant Nobz get a good kicking to see them on their way.

NOBZ unit only. When an enemy unit engaged with this unit is selected to make a fall-back move:

- That enemy unit must select the desperate escape mode.
- If this unit is **riled up**, that enemy unit has -1 to the hazard rolls made for that desperate escape.

TELLYPORTA BOSS

This Ork has bullied his way into possession of a mostly functional tellyporta pad, and has so far survived being thrown through the Warp towards the best fights.

MEGA ARMOUR model only. This unit (excluding **VEHICLE** units) has Deep Strike.

Stratagems

TOO ARROGANT TO DIE — 1CP

With bone-headed arrogance, Nobz will carry on killing before their deaths finally dawn on them.

- **When:** Fight phase, when an enemy unit targets a friendly **MEGANOBZ/NOBZ** unit.
- **Target:** That **MEGANOBZ/NOBZ** unit.
- **Effect:** When a model in your unit is destroyed, if your unit has not been selected to fight this phase, roll one D6, with +1 to that roll if your unit is **riled up**:
 - On a 4+, do not remove that model from the battlefield. When your unit has fought, or at the end of the phase (whichever comes first), that model is removed from the battlefield.

ARMED TO DA TEEF — 1CP

Nobz load themselves with all manner of weapons in shows of wealth and influence.

- **When:** Your Shooting phase or the Fight phase, when a friendly **MEGANOBZ/NOBZ** unit is selected to attack.
- **Target:** That **MEGANOBZ/NOBZ** unit.
- **Effect:** Your unit's attacks can:
 - Re-roll hit rolls of 1.
 - If your unit is **riled up**, re-roll hit rolls.

HULKING BRUTES — 1CP/+1CP

The thick sinews and thicker skulls of Nobz make them a daunting prospect to gun down.

- **When:** Your opponent's Shooting phase, when an enemy unit targets a friendly **MEGANOBZ/NOBZ** unit.
- **Target:** That **MEGANOBZ/NOBZ** unit.
- **Effect (1CP):** Ranged attacks that target your unit with a S greater than your unit's T have -1 to wound rolls.
- **Or (+1CP):** Ranged attacks that target your unit have -1 to wound rolls.

◆ SLIDE 4 — TAKTIKAL BRIGADE & WRECKAS

Source pages: 128–129.

Rendered slide · High-resolution source

Taktikal Brigade

Detachment rule — Suspiciously Well Organised

An un-Orky compulsion for discipline can wrongfoot enemies expecting anarchic disorder.

- Friendly **STORMBOYZ** units have **BATTLELINE**.
- When a friendly **BOYZ/KOMMANDOS/STORMBOYZ** unit is selected to make a fall-back move, that fall-back move does not prevent that unit from being eligible to declare a charge.

Enhancements

KILL KOMMANDO

Possessed of exceptional kunnin' and a weird obsession with sneakin' about, this powerful Ork leader loves nothing more than creeping through enemy defences before carving a bloody path through their lines.

BIG MEK/WARBOSS INFANTRY model only. While this model is part of an attached unit, this model has:

- Infiltrators.
- Stealth.

THROAT-SLITTAS

Veterans of the relatively organised butchery of well-protected targets, these distrusted Orks make excellent forward assassins.

KOMMANDOS/STORMBOYZ unit only. This unit's melee attacks have **[LETHAL HITS: non-MONSTER/VEHICLE]**.

Stratagems

DUBIOUS RESTRAINT — 1CP

A few Orks, particularly those of a rebelliously disciplined outlook, can resist their destructive urges just long enough to prioritise strategic gains.

- **When:** Start/end of your Movement phase.
- **Target:** One friendly **BOYZ/KOMMANDOS/STORMBOYZ** unit.
- **Effect:** Select one objective your unit is controlling. That objective is secured.

MIND MOSTLY ON THE MISSION — 1CP

When there's a dirty job needs doing, Orks with strange compulsions get a kick out of causing such trouble sneakily or swiftly.

- **When:** Your Movement phase, when a friendly **BOYZ/KOMMANDOS/STORMBOYZ** unit is selected to make an advance/fall-back move.
- **Target:** That **BOYZ/KOMMANDOS/STORMBOYZ** unit.
- **Effect:** That move does not prevent your unit from being eligible to start an action.

WHILE THEIR BACKS ARE TURNED — 1CP

With the gitz they were fighting having scarpered, mobs with a plan exploit the sudden lull to press towards whatever target has next caught their eye.

- **When:** End of your opponent's Movement phase.
- **Target:** One friendly unengaged **BOYZ/KOMMANDOS/STORMBOYZ** unit that was engaged at the start of the phase.
- **Effect:** Your unit can make a normal move of up to 6".

Wreckas

Detachment rule — Wreckin' and Lootin'

Whether piratical or merely larcenous, Orks with an eye for loot react forcefully to rival claims.

In your Shooting phase, when a friendly **BREAKA BOYZ/FLASH GITZ/TANKBUSTAS** unit is selected to shoot, if any of the following apply, that unit's attacks can re-roll hit rolls of 1:

- That unit is within range of an objective.
- The target of that attack is within range of an objective.

Enhancements

KAPTIN'S HAT

This impressively ostentatious piece of headgear signifies that whoever nicked it last controls a fleet of freebooter and invasion landers, ideal for the rapid redeployment of loot-hungry Orks.

BIG MEK/WARBOSS INFANTRY model only. When both players have deployed their armies, you can redeploy up to three friendly **ORKS INFANTRY** units. When doing so, you can set those units up in strategic reserves, regardless of how many units are already in strategic reserves.

SUPA-SNAZZ DAKKA

Coils of sparking wires, unstable propellant and throbbing power cells are just some of the extras which Flash Gitz rivet onto their snazzguns to kill the enemy in more over-the-top ways.

FLASH GITZ unit only. This unit's Snazzgun weapons have **[RAPID FIRE 1]**.

Stratagems

DRIVE-BY BUSTIN' — 1CP

Ork Transports are not the smoothest of rides. However, the hard gits inside have honed their gun-toting skills to compensate for movement in the pursuit of deadly accuracy.

- **When:** Your Shooting phase, when a friendly **ORKS TRANSPORT** unit is selected to shoot.
- **Target:** That **ORKS TRANSPORT** unit.
- **Effect:** Your unit's ranged attacks with weapons selected for its Firing Deck ability have +1 to hit rolls.

GRAB IT — 1CP

Wreckin' some gitz is all well and good, but staying idle gives an 'onest and 'ard-working Ork no opportunity for more loot in runnin' battles.

- **When:** Your Shooting phase, when a friendly unengaged **BREAKA BOYZ/FLASH GITZ/TANKBUSTAS** unit has been selected to shoot.
- **Target:** That **BREAKA BOYZ/FLASH GITZ/TANKBUSTAS** unit.
- **Effect:**
 - Your unit can make a normal move of up to 6" and must end that move within range of an objective.
 - Your unit is not eligible to declare a charge until the end of the turn.

GUN-CRAZY SHOW-OFFS — 1CP

With a burst of contempt, these Orks decide to show the gitz who just shot at them what real guns are capable of.

- **When:** Your opponent’s Shooting phase, when an enemy unit has shot.
 - **Target:** One friendly **FLASH GITZ/TANKBUSTAS** unit hit by those attacks.
 - **Effect:** Your unit shoots as if it were your Shooting phase, but while doing so, your unit can only target that enemy unit.
-

◆ SLIDE 5 — DA BIG HUNT & MADCAP MEKS

Source pages: 130–131.

Rendered slide · High-resolution source

Da Big Hunt

Detachment rule — Da Hunt Is On

Beast Snaggas fanatically hunt the biggest targets and are experts in finding their weak spots.

Friendly **BEAST SNAGGA** units' attacks that target a **MONSTER/VEHICLE** unit have +1 AP.

Enhancements

GLORY HOG

When bigger prey is sighted, nothing can keep this hunter from it. With a roar of glee, lesser gitz are swiftly forgotten in his enthusiasm to pile into a greater challenge.

BEAST SNAGGA model only. When this unit is selected to make a fall-back move, that fall-back move does not prevent this unit from being eligible to declare a charge.

IT CAME FROM DA DROPS

The monstrous resilience — and odour — of this Beastboss' hulking mount has inspired many lurid tales of its origin.

BEASTBOSS ON SQUIGOSAUR model only. This model has +1 T.

Stratagems

WHERE D'YA FINK YOU'RE GOING? — 1CP

Beast Snagga victims often make a break for it before the Orks have tired of fighting. Hooked, impaled or ridden down, few survive such flight.

- **When:** Your opponent's Movement phase, when an enemy unit is selected to make a fall-back move, if that enemy unit is engaged with a friendly **BEAST SNAGGA** unit.
- **Target:** That **BEAST SNAGGA** unit.
- **Effect:** When an enemy unit engaged with your unit is selected to make a fall-back move, that enemy unit must use the desperate escape mode. If that enemy unit is a **MONSTER/VEHICLE** unit, that enemy unit makes three additional hazard rolls for each **BEAST SNAGGA** unit it is engaged with, with -1 from those hazard rolls if that enemy unit is battle-shocked.

GOADED INTO ACTION — 1CP

Should attempts to obliterate the Beast Snaggas from afar fail, it is often the foe's last mistake as the hunters turn their baleful attention on them.

- **When:** Your opponent's Shooting phase, when an enemy unit has shot.
- **Target:** One friendly unengaged **BEAST SNAGGA** unit that lost a wound as a result of those attacks.
- **Effect:** Your unit can make a surge move of up to D6". If your unit is **riled up**, it can re-roll that D6.

INSTINCTIVE HUNTERS — 1CP

With a keen eye for tracking their prey, Beast Snaggas will circle around to ambush the luckless gitz from another angle.

- **When:** End of your opponent's Fight phase.
- **Target:** One friendly unengaged **BEAST SNAGGA** unit within 6" of a battlefield edge.
- **Effect:** Place your unit in strategic reserves.

Madcap Meks

Detachment rule — Unpredictable Genius

Meks haul all manner of weird bullets, unstable power cells and kustomised extras to battle.

In your Shooting phase, when all of a friendly **BIG MEK/MEK GUNZ/MORKANAUT/WAZBOM BLASTAJET** unit's ranged attacks target a single enemy unit, roll one D6:

D6	RESULT
1	Dat's Weird: The target unit has 4+ InvSv until your unit has shot.
2–3	Hop Splat: Select one other enemy unit within 3" of the target. That unit suffers D3 mortal wounds.
4	Seekerz: Those attacks have +1 to hit rolls.
5	Lifted: The target unit has FLY, and cannot have the benefit of cover, until your unit has shot.
6	Runtified: The target unit has -1 T until your unit has shot.

Enhancements

MEKWAAAGH! MASTERMIND

This Big Mek's obsession with feverish inventing and his dreams of ludicrous technological destruction are infectious, inspiring other Orks to excitable aggression.

BIG MEK model only. This unit is **riled up**.

TEMPERAMENTAL SHOKKA

Shokk attack guns are notoriously unreliable, and even with a supposedly enhanced set of worky bits, this Big Mek is never certain what will happen when he sets the thing off.

BIG MEK WITH SHOKK ATTACK GUN model only. In your Shooting phase, when this unit is selected to shoot, you can roll one D6:

- On a 1, this model's Shokk Attack Gun weapon has **[TORRENT]**, and when this unit has shot, this model is destroyed.
- On a 2–5, this model's Shokk Attack Gun weapon has +1 A.
- On a 6, this model's Shokk Attack Gun weapon has **[SUSTAINED HITS 2]**.

ENHANCED RUNT-MAW

These kustom jobs incorporate an oversized suction device, drawing in nearby runts aplenty, as well as Squigs, loose scrap, and even poorly fastened pieces of the gun itself. The Mek's targets — those that survive — end up infested with countless screeching Snotlings.

BIG MEK WITH SHOKK ATTACK GUN model only. When this unit has shot, select one enemy unit hit by those attacks. That unit is **infested with Snotlings** until the start of your next turn.

- While an enemy unit is **infested with Snotlings**, that unit has -1 to Leadership rolls.

Stratagem

VINDICTIVE ARTILLERISTS — 1CP

Though cowardly, Grot artillery crews will dare to overcharge their weapons in acts of spectacular spite.

- When:** Your Shooting phase, when a friendly **MEK GUNZ** unit is selected to shoot.
- Target:** That **MEK GUNZ** unit.
- Effect:** Your unit's ranged attacks have:
 - [LETHAL HITS]**; or

- **[SUSTAINED HITS 1];** or
 - **[HAZARDOUS], [LETHAL HITS], [SUSTAINED HITS 1].**
-

Dread Mob

Detachment rule — Try Dat Button!

Inviting Mek-wired buttons offer varied and erratic lethality.

In your Shooting phase or the Fight phase, when a friendly **ORKS WALKER** unit (excluding **TITANIC** units) is selected to attack, you can use this ability. If you do, roll either one D6 or two D6 (keep re-rolling duplicate results). This unit’s attacks have the relevant rule(s):

D6	RESULT
1–2	+1 A
3–4	+2 S
5–6	+1 AP

If you rolled two D6, when this unit has attacked, this unit makes one hazard roll.

Enhancements

CYBORK BOOSTA

This Mek’s extra bioniks help him keep up with his Kans.

BIG MEK/MEK model only. This model has +2" M.

DREADHERDER

This Mek is deft at avoiding his creations’ feet and claws.

BIG MEK model only. While this model is within 3" of a friendly **ORKS WALKER** unit (excluding **BIG MEK** units):

- This model has Lone Operative.
- In your Shooting phase, you can select one friendly **ORKS WALKER** unit within 3" of this model. That unit’s attacks can re-roll hit rolls of 1 until the end of the turn.

Stratagems

CRAZED RAMPAGE — 1CP

Even horrific damage will not prevent many Ork combat walkers from crunching and stomping their enemies in a final fugue of psychotic aggression.

- **When:** Fight phase, when an enemy unit targets a friendly **ORKS WALKER** unit (excluding **TITANIC** units).
- **Target:** That **ORKS WALKER** unit.
- **Effect:** When a model in your unit is destroyed, if your unit has not been selected to fight this phase, roll one D6, with +3 to the result if your unit has **DEFF DREAD**:
 - On a 4+, do not remove that model from the battlefield. When your unit has fought, or at the end of the phase (whichever comes first), that model is removed from the battlefield.

DREAD POWER — 1CP

Fuelled by the pilot’s obsession or psychosis — and powered up by varied erratic gubbinz — it is little wonder that a Kan’s stomping rampages are constantly reignited.

- **When:** Your Movement phase.
- **Target:** One friendly **ORKS WALKER** unit.
- **Effect:** Your unit is **riled up** until the start of your next turn.

STOMPING JUGGERNAUT — 1CP

A pilot's single-mindedness and his walker's durable form mean few obstacles can impede its relentless stomping advance.

- **When:** Your Movement/Charge phase, when a friendly **ORKS WALKER** unit is selected to move or declares a charge.
- **Target:** That **ORKS WALKER** unit.
- **Effect:** Your unit has **MOBILE**.

Blitz Brigade

Detachment rule — Unstoppable Momentum

Like mobile armoured fortresses, little can stop the crushing impetus of the Orks' hulking wagons.

- Friendly **WAGON** units can re-roll charge rolls.
- When a friendly **WAGON** unit is selected to make an advance move, that unit can change advance rolls to a 6.

Enhancements

TARGETIN' GIZMOS

These sparkly optiks and other elaborate gitfindas help focus a wagon's dakka, but it takes a really clever Mek to know how to work them.

WAGON unit only. While a **BIG MEK** model is embarked within this unit:

- This unit's ranged attacks have **[IGNORES COVER]**.
- If this unit is **riled up**, this unit's ranged attacks have **[SUSTAINED HITS 1]**.

BOSS BOOMER

Fitted with speakin' tubes linked to deafening projectors, this noisy ride allows an important Ork to boss his ladz around while on the move.

WAGON unit only. While a **WARBOSS** model is embarked within this unit, this unit has that **WARBOSS** model's Intimidating Motivation/Keep Huntin' ability.

Stratagems

KEEP IT RUNNIN' — 1CP

The crews of the Orks' hulking transports maintain a high level of readiness for when the ladz get bored and rapidly clamber back on board to look for a new fight.

- **When:** End of the Fight phase.
- **Target:** One friendly unengaged **ORKS INFANTRY** unit that was eligible to fight this phase and is wholly within 6" of a friendly **TRANSPORT** unit that **INFANTRY** unit is able to embark within.
- **Effect:** Your **INFANTRY** unit embarks within that **TRANSPORT** unit.

READIED BRAWLERS — 1CP

Bursting from assault hatches, pounding down boarding ramps or leaping from handholds, this thuggish transport's fighters are quick to pile out.

- **When:** Your Movement phase, when a friendly **WAGON** unit ends a normal move.
- **Target:** That **WAGON** unit.
- **Effect:** Units embarked within your unit can make an assault disembark move (pg 121).

IMPENDING KRUNCH — 1CP

Having several tons of metal covered in blood, rust and spikes bearing down on them can shake the resolve of the most stoic warriors.

- **When:** Your Charge phase, when a friendly **WAGON** unit ends a charge move.
 - **Target:** That **WAGON** unit.
 - **Effect:** Each enemy unit engaged with your unit makes a battle-shock roll, with -1 to that battle-shock roll.
-

◆ SLIDE 7 — KULT OF SPEED & FLYBOYZ

Source pages: 134–135.

Rendered slide · High-resolution source

Kult of Speed

Detachment rule — Adrenaline Junkies

After smashing into the foe at full tilt, a Speed Freek will pull hairpin turns to do it all again.

- Friendly **WARBIKERS** units have **BATTLELINE**.
- When a friendly **SPEED FREEKS** unit is selected to make an advance/fall-back move:
 - That unit's ranged attacks have **[ASSAULT]** until the end of the turn.
 - That move does not prevent that unit from being eligible to declare a charge.

Enhancements

SMOKY GUBBINZ

These loud, fume-belching devices wreath those in the Speed Freeks' wake in a thick bank of obscuring smoke.

SPEED FREEKS unit only (excluding **AIRCRAFT** units). When an attack targets a unit that is not fully visible to the attacking model because of a model in this unit, the target has the benefit of cover against that attack.

COMPETITIVE STREAK

This Speedboss despises the thought of coming anything less than first in a race to reach the biggest fights.

DEFFKILLA WARTRIKE model only. This unit can re-roll charge rolls.

Stratagems

DELICIOUS EATING SQUIGS — 1CP

Besides more dangerous fare, Squig-lobbing buggies fire edible Squigs for a price, guaranteed to enliven any Ork if he can eat it before it eats him.

- **When:** Your Movement phase.
- **Target:** One friendly **RUKKATRUKK SQUIGBUGGIES** unit.
- **Effect:** Select any number of friendly **ORKS INFANTRY** units within 3" of your unit. Each selected unit heals 3 wounds.

DAKKASTORM — 1CP

Often all an enemy will see of a Kult of Speed is a dust cloud as they speed by, all guns blazing.

- **When:** Your Shooting phase, when a friendly **SPEED FREEKS** unit is selected to shoot.
- **Target:** That **SPEED FREEKS** unit.
- **Effect:** Your unit's ranged attacks have **[SUSTAINED HITS 1]**.

SPEEDIEST FREEKS — 1CP

Speed Freeks are often just blurs of vehicular mayhem that prove difficult to land a blow on.

- **When:** Your opponent's Shooting phase, when an enemy unit targets a friendly **SPEED FREEKS** unit.
- **Target:** That **SPEED FREEKS** unit.
- **Effect:** Ranged attacks that target your unit fail on an unmodified hit roll of 1–3.

Flyboyz

Detachment rule — Skyborne Loons

When attacking en masse, crazed and excitable Flyboyz unleash torrential quantities of dakka.

- Friendly **ORKS AIRCRAFT** units do not count towards the combined points value of your strategic reserves units.
- While a friendly **ORKS AIRCRAFT/DEFFKOPTAS** unit is **riled up**, this unit's ranged attacks have +1 to hit rolls.

Enhancements

FLYBOSS

Brutish aces who have survived enough dogfights to rise to positions of superiority, Flybosses inspire other Ork aviators to heights of psychotic enthusiasm.

ORKS AIRCRAFT unit only.

- This unit has CHARACTER.
- When this unit ends an ingress move, each friendly **ORKS AIRCRAFT/DEFFKOPTAS** unit within 6" of this unit is **riled up** until the start of your next turn.

IMPULSIVE RECON

Despite claims of scoutin', this aircraft's screaming dive ahead of its pilot's mates is purely for the thrill of attacking first.

ORKS AIRCRAFT unit only. In your first Movement phase, this unit can make an ingress move.

Stratagems

FLYIN' HEADBUTT — 1CP

Some Ork pilots, out of bullets and out of luck, brighten up considerably when they realise their own aircraft is a deadly weapon in its own right.

- **When:** Any phase, when a friendly **ORKS AIRCRAFT** is destroyed, before rolling for any Deadly Demise.
- **Target:** That **ORKS** unit.
- **Effect:** Your unit does not have the Deadly Demise ability. Select one enemy unit within 12" of your unit and roll eight D6:
 - For each 4+, that enemy unit suffers 1 mortal wound.
 - Then remove your unit from the battlefield.

LONG, UNCONTROLLED BURSTS — 1CP

Ork Flyboyz will fill the skies with dakka in an attempt to down any enemy they think is meddling in their aerial turf.

- **When:** Your Shooting phase, when a friendly **ORKS AIRCRAFT/DEFFKOPTAS** unit is selected to shoot.
- **Target:** That **ORKS AIRCRAFT/DEFFKOPTAS** unit.
- **Effect:** When your unit's ranged attacks target a FLY unit, those attacks can re-roll hit rolls.

WHIRLIGIG EVASION — 1CP

Enemy attempts to hunt Deffkoptas down can be stymied by nimble aerial evasion, usually accompanied by a crude hand gesture in the foe's direction.

- **When:** Your opponent's Movement phase, when an enemy unit ends a move.
 - **Target:** One friendly unengaged **DEFFKOPTAS** unit within 8" of that enemy unit.
 - **Effect:** Your unit can make a normal move of:
 - Up to D6"; or
 - If your unit is **riled up**, up to 6".

Brute Bosses

Belligerent generals and living embodiments of Orkdom lead the rampage.

Detachment rule — 'Ard as Nails

The largest Orks have risen to their position through strength, savagery and being harder than anyone else.

When a friendly **WARBOSS** model is destroyed, if this unit has not been selected to fight this phase, roll one D6, with +1 to the roll if your unit is riled up:

- On a 3+, do not remove this **WARBOSS** model from the battlefield. When this unit has fought, or at the end of the phase (whichever comes first), this **WARBOSS** model is removed from the battlefield.

Enhancements

SURLY AS A SQUIGGOTH

With a lifetime of picking fights with the galaxy's most lethal fighters behind him, and a gnarled hide thicker than Battlewagon armour, this Ork has survived blows that would fell an Ambull.

INFANTRY WARBOSS model only. (Once per battle, per army.) At the end of a phase in which this model is destroyed, roll one D6:

- On a 2+, set this model back up on the battlefield as close as possible to where it was destroyed, unengaged, with 3 wounds remaining.

BRUTAL BUT KUNNIN'

What tactics occasionally pop into this Ork's head revolve purely around how hard he needs to wallop his enemies to send their skulls flying.

WARBOSS model only. This model's melee attacks have +1 D.

BLITZBOSS

It is said this Ork bleeds Squig oil and his growl is that of a revving engine. Certainly any vehicle he rides to war seems to respond powerfully to his presence.

WARBOSS model only. A **TRANSPORT** unit (excluding **WALKER** units) this unit is embarked within has:

- +2" M.
- 5+ InvSv.

PROPER KILLY

This unstoppable brute is an engine of destruction, whose welts of scars have been won in countless victories.

WARBOSS model only. This model can re-roll Hit rolls of 1.

MURGOG'S FINKIN' CAP

Thanks to the tangle of stolen empyric electrodes wired into this helmet, a powerful Ork wearing it is capable of thinking a little further ahead than his next fight.

WARBOSS model only. (Once per battle, per army.) At the end of your opponent's Movement phase, if this unit is unengaged, this unit can make a normal move of:

- Up to D6".
- If this unit is riled up, you can re-roll that D6.

DA GOBSHOT THUNDERBUSS

Firing gold-plated teef as its unconventional ammunition, da Gobshot Thunderbuss proclaims its owner's obscene wealth even as it sweeps away swathes of enemies.

WARBOSS model only. This model has the following weapon:

WEAPON	KEYWORDS	RANGE	A	BS	S	AP	D
Da Gobshot Thunderbuss	[LETHAL HITS: non-MONSTER/VEHICLE, RAPID FIRE 3]	24"	6	4+	7	-2	2

Surrounded by mobs of excitable Orks, Weirdboyz' shamanic powers build to spectacular phenomena.

Friendly **ORKS PSYKER** models' [PSYCHIC] attacks have:

- +1 S.
- +1 S for every 5 models in this unit (or embarked within this model).

Friendly **ORKS PSYKER** models have the following psychic abilities:

ROAR OF MORK (PSYCHIC LEVEL 1)

In your Movement phase, if this unit is not battle-shocked, you can make a psychic roll for this unit by rolling one D6. If you do:

- On a 1, this unit is battle-shocked.
- Select one enemy unit (excluding **MONSTER/VEHICLE** units) within 12" of this unit. That enemy unit makes a battle-shock roll, with -1 from that battle-shock roll for every 10 models in this unit.

VISIONS OF VIOLENCE (PSYCHIC LEVEL 1)

At the start of the Fight phase, if this unit is not battle-shocked, you can make a psychic roll for this unit by rolling one D6. If you do:

- On a 1, this unit is battle-shocked.
- This unit has Fights First.

Enhancements

DA KRUNCH

Roiling energies frequently erupt from this Weirdboy's eyes, solidifying above the enemy into the huge green foot of Gork (or Mork) himself, which repeatedly stamps on the foe.

ORKS PSYKER model only. This model has the following weapon:

WEAPON	KEYWORDS	RANGE	A	BS	S	AP	D
Da Krunch	[BLAST 3, HAZARDOUS, LETHAL HITS, PSYCHIC]	24"	3	4+	5	-1	5

'EADBANGER

Known for yelling 'Kop dis, ya zogger!' at his chosen target beforehand, this Weirdboy is in the habit of projecting a bolt of raw power from his forehead which splatters the victim's brains across a wide area.

ORKS PSYKER model only. This model has the following weapon:

WEAPON	KEYWORDS	RANGE	A	BS	S	AP	D
'Eadbanger	[HAZARDOUS, PRECISION, PSYCHIC]	24"	2	4+	6	-3	3

WARPHEAD

Where most Weirdboyz would quite like to be left alone, so-called Warpheads become addicted to the danger, intentionally supercharging their tortured minds and revelling in venting dangerously unpredictable powers.

ORKS PSYKER model only. This model:

- Has psyker level 2.
 - Has Deadly Demise D6.
 - Can re-roll psychic rolls.

Runt Swarm

Sneaky and gittish Gretchin are surprisingly effective in large numbers.

Detachment rule — Sneaky Little Gitz

Given no position of importance, Grots find their niche as sneaks, thieves and mischief-makers.

- Friendly **GRETCHIN** units have **BATTLELINE**.
- When a friendly **GRETCHIN** unit is selected to make an advance/fall-back move, that move does not prevent this unit from being eligible to start an action.

Enhancements

EXTRA SNEAKY — UPGRADE

A lifetime of evading the attentions of Orks and even other runts has honed these Grots' sneakiness to preternatural levels.

GRETCHIN unit only. This unit has -3" detection range.

MINEFIELD DETAIL — UPGRADE

Rebellious, lazy or just plain unlucky Gretchin are driven into dangerous vanguard duties. These runts scarper forward with the hope of making it through as quickly as possible.

GRETCHIN unit only. While this unit is not embarked, this unit has Scouts 6".

Stratagems

INFESTED WAR ZONE — 2CP

Short, sneaky and skilled at hiding, there are usually a lot more Gretchin about than meets the eye.

- **When:** Any phase, when an enemy unit has attacked.
- **Target:** One friendly **GRETCHIN** unit that was just destroyed. You can target that unit with this stratagem even though that unit was just destroyed.
- **Effect:** Add a new **GRETCHIN** unit to your army identical to your destroyed unit, in strategic reserves, at its starting strength, with its full wounds remaining.

SCARPER! — 1CP

Through natural cowardice or a Runtherd's threats, Grots' agile reactions can leave foes flat-footed.

- **When:** Your opponent's Movement phase, when an enemy unit ends a move within 6" of a friendly unengaged **GRETCHIN** unit.
- **Target:** That **GRETCHIN** unit.
- **Effect:** Your unit can make a normal move of:
 - Up to D6".
 - Or: Up to 6" instead if your unit is an attached unit.

GROT SHIELDS — 1CP

Despite their protestations, Gretchin make surprisingly effective bullet shields.

- **When:** Your opponent's Shooting phase, when an enemy unit targets a friendly **ORKS INFANTRY** unit (excluding **GRETCHIN** units).
- **Target:** One friendly **GRETCHIN** unit within 3" of that **ORKS INFANTRY** unit.
- **Effect:** When a Hit roll for that enemy unit's ranged attacks that target that **ORKS** unit results in a hit, if a model in your **GRETCHIN** unit is on the battlefield, end the attack sequence for that attack and your **GRETCHIN** unit suffers 1 mortal wound.

Shoota Boyz

Dakka-addicts gleefully unleash ear-splitting fusillades of firepower.

Detachment rule — Dakka! Dakka! Dakka!

Always hunting for something to kill, when Orks spot a target they saturate it with dakka.

Friendly **ORKS INFANTRY** units' ranged attacks have:

- **[ASSAULT].**
- While this unit is riled up, +3" R.

Enhancements

SUPA-GLOWY FING

The Mek who cobbled together this strange dakka accelerator isn't sure exactly what it does — and it glows wildly — but its new owner proudly carries it to battle, eager to know what its big switch will do this time.

ORKS INFANTRY model only (excluding **WEIRDBOY** models). This model's ranged attacks have:

- **[ANTI-INFANTRY 4+].**
- **[DEVASTATING WOUNDS].**
- **[SUPA-HAZARDOUS].**

[SUPA-HAZARDOUS]: Each time a unit is selected to shoot, after that unit has resolved all of its attacks, make two hazard rolls for that unit for each **[SUPA-HAZARDOUS]** weapon you selected in the Select Weapons step.

TARGETIN' SQUIGS

With a couple of these boggle-eyed varieties of Squigs on hand, even Ork shooting has a chance of hitting distant targets, helped by squinting really hard.

BIG MEK/BIGBOSS/WARBOSS model only. This unit's ranged attacks (excluding **[TORRENT]** attacks) have +3" R.

Stratagems

KUSTOM DAKKA — 1CP

Extra special ammunition is hoarded by these Orks obsessed with dakka, ready for the ideal target when it is sighted in a supremely killy fashion.

- **When:** Your Shooting phase, when a friendly **ORKS INFANTRY** unit is selected to shoot.
- **Target:** That **ORKS INFANTRY** unit.
- **Effect:** Your unit's ranged attacks that target a unit (excluding **MONSTER/VEHICLE** units) have +1 to wound rolls.

GLOWIN' DAKKA — 1CP

Semi-molten or radioactive slugs? Frazzle bullets? Substantial shells? Orks will try anything they can afford to crack open enemy armour in style.

- **When:** Your Shooting phase, when a friendly **ORKS INFANTRY** unit is selected to shoot.
- **Target:** That **ORKS INFANTRY** unit.
- **Effect:** Your unit's ranged attacks that target a unit within 9" have +1 AP.

NEVER ENOUGH DAKKA — 1CP

Squeezing the trigger until their weapon stops firing or falls apart in their hands is a standard tactic for many Orks, and their horrifically wild bursts eventually find their mark.

- **When:** Your Shooting phase, when a friendly **ORKS INFANTRY** unit is selected to shoot.
 - **Target:** That **ORKS INFANTRY** unit.
 - **Effect:** Your unit's ranged attacks have **[SUSTAINED HITS 1]**.
